What is 'All About Me'?

This booklet is to provide us with a parent perspective of some aspects of your child's development and personality as they transfer from pre-school to our reception class here at South Wilford Endowed Primary School. We hope you will spend some time with your child completing this booklet so we can begin to get a holistic picture of your child as they begin full time education. In completing the booklet your family's privacy is maintained. You do not have to give any more information than you or your child wish, but it is all very useful for us to know when allocating their class and preparing to meet their needs in the most effective way.

Anything else you would like us to know about your child (their development, behaviour, needs, friendships or family):

We hope you have enjoyed filling in this booklet and that it has been an interesting exercise for you and your child.
